

What results look like on e-AQA results screens and Enhanced Results Analysis (ERA)

Summer 2020 (v1.0)

Because there were no exams in summer 2020, there are some changes to the way that information will be displayed on e-AQA Results and Enhanced Results Analysis (ERA).

Changes to e-AQA Results:

- Mark or UMS data will display as zero (0) or not available
- As we are not issuing unit results for modular qualifications except Functional Skills English, unit results will show as 'No result'
- There are no grade boundaries

Changes to ERA

You have full functionality for:

- 'Maintain Groups' - you can still use this to compare results between different groups of students
- 'Grades Overview' - you can still use this to compare results against previous years, similar centres and all AQA centres.

You will experience limited functionality for:

- 'Marks Analysis' - as there is no mark or UMS data available
- 'Download Results' - mark and UMS data will show as zero
- 'Student Results' - mark and UMS data will show as zero and there will be no grade boundary graphs.
