

# Summer support

Like you, we want to do what matters and support you as you equip your students for the road ahead. We've collected the essential information and quick links, so you can focus on doing what matters for your students.

## Resources

### Enhanced Results Analysis

ERA allows you to see how students performed in specific topics from the last exam series, to help you tailor your lesson plans and focus your teaching where it's needed most. We teamed up with teachers to create tutorials on using our free Enhanced Results Analysis tool on e-AQA.

**Here's everything you need to know**

### Results insight series

At the end of summer we produce a results insight series, so you can dig deeper into results at a national and subject level.

We run feedback events, detailed reports, webinars and videos.

### Secure Key Materials on e-AQA

Here you'll find recent exam past papers, example answers and examiner commentary that's not available on our public website. These resources are ideal for mocks or exam practice with your students. Past papers are uploaded to our secure key materials sight and examiners' reports are available post-results.

### The 'Assess' tab

Further past papers and Sample Assessment Materials can be found under the 'assess' tab on the individual subject pages.

These come along with examiner reports – so you can get a clearer picture of what went well and areas for improvement.

## Communities

### Exampro

The exam preparation tool to support AQA qualifications. The question banks are a great resource for summer prep and can be used to create topic tests, homework, and revision materials in line with the latest specifications. It offers thousands of past GCSE and A-level questions, their related mark schemes and examiner comments.

### Twitter

Become part of our online community of **39.3k** followers @AQA

**Have your say and join the conversation**

### Exams administration

To save you time, we've collected all of the key dates and info you need. You can find the right support on the exams administration section of our website.

## Support teams

### Teacher Services

Our team of dedicated and friendly AQA staff handle thousands of calls a month, and are here to provide the support you need this summer. Queries commonly range from specification content to any aspect of assessment.

Contact the subject teams Monday-Friday.  
**Search for your team**, here.

### Curriculum Teams

Our Curriculum teams use their subject expertise to support teachers. They explain, in detail, our specifications and assessment approach, generally and at subject or qualification level. You can get in-touch via our Teacher Services teams, at exhibitions or through our webinar Q&As.

### Relationship Managers

Regional relationship managers offer local support for teachers in schools and colleges. They can advise you on setting-up and using ERA ahead of results day and provide tailored summer support.

## Events

Over the summer term we run a range of online and face-to-face events, such as our popular getting started and feedback events. Find the right course on the **professional development** pages of our website.

**We're here to support you, when it matters**
