

Get ready for grading

This summer, we're doing all we can to provide the support you need, so you can confidently grade your students. **Together, we can work towards fair grades for students.**

Get the latest guidance

The latest guidance brought to life by our experts, helping you grade your students with confidence.

We're bringing you:

- Latest Ofqual and JCQ cross-board guidance
- JCQ grade descriptors and model example student answers at different performance levels
- Video guides
- Subject-specific grading guidance from our subject experts
- Free training in centre-level standardisation and moderation

Assess your students

Use our optional 2021 assessment materials to add to your range of evidence or help confirm your grading decisions.

We're providing:

- Sets of questions and mark schemes grouped by topic
- Mapping grids showing curriculum coverage
- Example student answers with examiner commentaries
- Free on-demand training and marking guidance (for selected subjects)

Get in touch with any questions

We know it can really help to chat things through with real people, and we're here and ready to help.

Our support includes:

- Customer service teams available between 8am and 4pm every weekday
- A team of subject experts to help with any queries
- Relationship managers and NEA advisors to help support you
- Regular emails and Twitter updates
- Information and support for school and college leadership teams
