### Information

- This advance information covers all examined components.
- For each paper the list shows the media forms/close study products (CSPs) assessed.
- Assessment of unseen products will still occur in both papers.
- Assessment of all four areas of the theoretical framework and contexts will still occur in both papers.
- It is **not** permitted to take this information into the examination.

### Advice

- Students and teachers should consider how to focus their revision of other non-listed parts of the specification, for example to review whether other media forms/products on the specification may provide knowledge which helps understanding in relation to the media forms/CSPs being assessed in 2022.
