

Grade boundaries – June 2019 exams

A-level – qualifications that use uniform marks

Here you can see the **unit** grade boundaries for A-level AS and A2 units. For units which comprise one component these are raw mark grade boundaries.

Units comprising two components

In units comprising two components, the grade boundary marks sometimes need to be scaled before they are aggregated to the overall unit-level. In these instances only the grade A and E scaled boundary marks are shown for each component as only these are set by the awarding committee. These scaled marks are then added to obtain unit-level grade A and E boundaries, at which point the intermediate grade B, C and D boundary marks are calculated for the unit as a whole (including the grade A* conversion points for A2 units). Where both unit and component grade boundary marks are reported, the unit is listed first, followed by its components (shaded and italicised).

Additional information on grade boundaries and uniform marks can be found [here](#).
