

Grade boundaries – January 2019 exams

ELC

Here you can see the grade boundaries for the ELCs.

For the Step Up to English specification, each subject, Silver Step (5972) and Gold Step (5973), comprise two components where the raw grade boundary marks need to be scaled before they are aggregated to the overall subject-level. Here, the subject grade boundaries are shown first followed by the component grade boundaries (shaded and italicised).

For Mathematics, the subject consists of one component and what are presented are raw mark grade boundaries.

Additional information on grade boundaries and uniform marks can be found [here](#)
