

Grade boundaries – June 2018 exams

Level 1 and Level 2 Certificates

Here you can see grade boundaries for Certificate Use of Mathematics and also for the Certificates in Enterprise and Employability and Preparation for Working Life.

Certificate in Use of Mathematics

Here you can see the **unit** grade boundaries for Core Unit 3 (43503F and 43503H). Each unit consists of one component so these are raw mark grade boundaries.

Certificates in Preparation for Working Life

Each subject comprises two components and the raw grade boundary marks sometimes need to be scaled before they are aggregated to the overall subject-level. In these instances just the key grade scaled boundary marks are shown for each component as only these are set by the awarding committee. These scaled marks are then added to obtain subject-level key grade boundaries, at which point the intermediate grade boundary marks are calculated for the subject as a whole. The subject grade boundaries are shown first, followed by its components (shaded and italicised).

Additional information on grade boundaries and uniform marks can be found [here](#)
