

## Teaching notes

---

This resource is designed to enable students to understand school rules (using *on doit / il faut / on peut* and negative forms) and describe their ideal school rules. It builds on the grammar introduced in the resource *Mes études*, but can also stand alone.

It consists of grammar notes (p.2), reading comprehension and translation tasks (pp.2-3) and a writing activity (p.4). There are also two interactive activities accompanying this resource: a Matching interactive version of Ex. A which could be used as a lesson starter or after doing the exercise to mark it as a class; and a Yes/No interactive version of Ex. B which could be used for class discussion of the task before, after or instead of doing the exercise on paper.
