Mark schemes are prepared by the Lead Assessment Writer and considered, together with the relevant questions, by a panel of subject teachers. This mark scheme includes any amendments made at the standardisation events which all associates participate in and is the scheme which was used by them in this examination. The standardisation process ensures that the mark scheme covers the students’ responses to questions and that every associate understands and applies it in the same correct way. As preparation for standardisation each associate analyses a number of students’ scripts. Alternative answers not already covered by the mark scheme are discussed and legislated for. If, after the standardisation process, associates encounter unusual answers which have not been raised they are required to refer these to the Lead Assessment Writer.

It must be stressed that a mark scheme is a working document, in many cases further developed and expanded on the basis of students’ reactions to a particular paper. Assumptions about future mark schemes on the basis of one year’s document should be avoided; whilst the guiding principles of assessment remain constant, details will change, depending on the content of a particular examination paper.

Further copies of this mark scheme are available from aqa.org.uk
**Section A**

**Comprehension questions to be answered in target language but with no AO3 marks**

Where the natural answer to a question consists entirely or partly of words or phrases from the text, students may use that material without rephrasing it. Minor spelling errors which do not distort the meaning will be tolerated. However, the AO2 mark will not be awarded for a response in which the student includes irrelevant material or copies inappropriately from the stimulus, eg by 'lifting' an element from the original which does not match the phrasing of the question set.

The marks for content (AO2) and language (AO3) are awarded independently. Long summaries will be marked for content (AO2) or language (AO3) only as far as the first natural break (usually the end of a sentence or main clause) between 90 and 100 words. Short summaries are not subject to an automatic penalty but in practice are unlikely to include all the required content points and will therefore be self-penalising.

The AO2 mark is awarded for content points which contain the required information, regardless of whether those points are expressed in the student's own words, or are partly or wholly lifted from the text. However, no AO2 mark will be awarded for a content point where the student includes irrelevant material or copies inappropriately from the stimulus, eg by 'lifting' an element from the original which does not match the phrasing of the bullet point.* 'Lifted' language will not be eligible for credit when the AO3 mark is awarded.

*Generic example of 'lifted' language:

1
Text includes *Having finished her studies, she became a doctor.*
Summary task includes the bullet point • *What she did before becoming a doctor*
Correct answer is *She studied*
Student writes in response to that bullet point *Having finished her studies, she became a doctor*
No credit for AO1 because the response does not match the phrasing of the bullet point. (Also no credit for AO3 because of lifting.)

2
Text includes ... *because computers will replace teachers*
Summary task includes the bullet point *Technological changes anticipated*
Correct answer is *Computers will replace teachers* or, to demonstrate successful manipulation *Teachers will be replaced by computers*
Student writes in response to that bullet point *because computers will replace teachers*
No credit for AO1 because the response does not match the phrasing of the bullet point. (Also no credit for AO3 because of lifting.)

Minor errors are defined as those which do not affect communication.

Serious errors are defined as those which adversely affect communication.

Minor errors include:
incorrect but close to correct spellings
incorrect genders/case forms and consequential errors of agreement

Serious errors include:
incorrect verb forms especially irregular forms, incorrect use of pronouns
missing or incorrect agreements of adjectives or past participles.

Complex language includes:
use of pronouns of all types
tenses that support conceptual complexity
connectives supporting a range of subordinate clauses including those requiring subjunctive constructions with verbs and verbs followed by infinitive with correct preposition
use of present and past participles.

Summary 1: 81 words – AO3 5/5

Tematem noweli są losy byłego powstańca, który po upadku powstania musiał opuścić swoją ojczyznę, by udać się na przymusową emigrację. Skawiński wędruje po różnych kontynentach w poszukiwaniu miejsca na osiedlenie się na stałe, które zastępowałoby mu ojczyznę. Gdy wreszcie po wielu latach takie miejsce znalazł szybko je stracił przez lekturę Pana Tadeusza. Zaczytawszy się w poemacie zapomniał o swoich obowiązkach i stracił pracę i dom. Mimo to odnalazł spokój w sercu, bo na kartkach poematu odnalazł ojczyznę, dawno utraconą i prawie zapomnianą.

Summary 2: 82 words – AO3 4/5

Latarnik to novella Henryka Sienkiewicza, utwór patriotyczny gdy Polska jeszcze cierpiała pod zaborcą. Utwór Sienkiewicza opisuje losy polskiego emigranta Józefa Skawińskiego, który tuła się po cały świat szukając miejsca, w którym mógłby się osiedlić, ale w każdym miejscu, od Australii do Afryki, spotyka go jakiś pech, na przykład pożar albo nieuczciwego partnera w biznesu, tak że często musi wyruszać się w dalszą drogę. Wreszcie znajduje ojczyznę na stronach utworu Adama Mickiewicza, Pan Tadeusz, która przyniesie mu spokój i ukojenie w jego wędrowanie.
Summary 3: 70 words – AO3 3/5

Latarnik jest nowelą o historii bohatera o nazwisku Józefa Skawińskiego, który był powstańcem i był też tym tytułowym latarnikiem w książce. Tułał się po całym świecie od od Australii przez Afrykę po obie Ameryki i wszędzie prześladował go pech. Nie mógł zagrzeć miejsca, chociaż był pracowity i odważny i uparty. Wreszcie osiedlił się na smotnej wyspie, gdzie znalazł pracę jako latarnik i tam odnalazł ojczyznę, ale na kartkach Pana Tadeusza.

Summary 4: 63 words – AO3 2/5

Latarnik jest utworem napisanym przez Henryka Sienkiewicza. Jest ona autobiografią polskiego emigranta Józefa Skawińskiego, który nie mógł znaleźć spokoj po udziale w wielu wojnach. Gdziekolwiek próbował swoje szczęście, spotykała go jakaś nieprzyjemność, która spowodowała, że musiał dalej poszukiwać miejsca, w którym mógłby osiedlić się i znaleźć spokój. Pod koniec historii Skawińskiego, on odnajduje ojczyznę, ale nie w miejscu, tylko w lekturze Pana Tadeusza.

Question 5

Translation into English
Acceptable quality of English in translations into English:

Errors in spelling
Where the candidate’s attempted spelling is a recognisable form of the correct spelling and does not correspond to another English word, the attempted spelling is accepted eg weight mis-spelt as waight is acceptable but mis-spelt as wait gives another word and so causes ambiguity.

Alternative answers
Examiners will be provided with a range of alternative answers in mark-schemes but in the event that these do not legislate for all versions and variations which candidates might produce, the guiding principle will be that answers that convey the same intended meaning are accepted.

Successful translation
Translation will be deemed successful if an English speaker would understand the translation and if each element of the original text figures in the translation.

The table below shows the type of answer that is acceptable for each section of the text. Award one mark per correct section then divide by two for a final mark out of 10. Half marks should be rounded up.

Section B  Research project Questions 6-9

Assessment Objectives 2, 3 and 4

Level of response marking instructions

Level of response mark schemes are broken down into levels, each of which has a descriptor. The descriptor for the level shows the average performance for the level. There are marks in each level.

Before you apply the mark scheme to a student’s answer, read through the answer and annotate it (as instructed) to show the qualities that are being looked for. You can then apply the mark scheme.

Step 1 Determine a level

Start at the lowest level of the mark scheme and use it as a ladder to see whether the answer meets the descriptor for that level. The descriptor for the level indicates the different qualities that might be seen in the student’s answer for that level. If it meets the lowest level then go to the next one and decide if it meets this level, and so on, until you have a match between the level descriptor and the answer. With practice and familiarity you will find that for better answers you will be able to quickly skip through the lower levels of the mark scheme.

When assigning a level you should look at the overall quality of the answer and not look to pick holes in small and specific parts of the answer where the student has not performed quite as well as the rest. If the answer covers different aspects of different levels of the mark scheme you should use a best fit approach for defining the level and then use the variability of the response to help decide the mark within the level, ie if the response is predominantly level 3 with a small amount of level 4 material it would be placed in level 3 but be awarded a mark near the top of the level because of the level 4 content.

Step 2 Determine a mark

Once you have assigned a level you need to decide on the mark. The descriptors on how to allocate marks can help with this. The exemplar materials used during standardisation will help. There will be an answer in the standardising materials which will correspond with each level of the mark scheme. This answer will have been awarded a mark by the Lead Examiner. You can compare the student's answer with the example to determine if it is the same standard, better or worse than the example. You can then use this to allocate a mark for the answer based on the Lead Examiner’s mark on the example.

You may well need to read back through the answer as you apply the mark scheme to clarify points and assure yourself that the level and the mark are appropriate.

Indicative content in the mark scheme is provided as a guide for examiners. It is not intended to be exhaustive and you must credit other valid points. Students do not have to cover all of the points mentioned in the Indicative content to reach the highest level of the mark scheme.

An answer which contains nothing of relevance to the question must be awarded no marks.
Assessment criteria

Each assessment objective should be assessed independently.

Students are advised to write approximately 300 words per essay. Everything that students write must be assessed; there is no word limit. Students writing the recommended length have access to the full range of marks.
