1 Introduction

1.1 Why choose AQA for A-level Spanish

You can find out about all our Spanish qualifications at aqa.org.uk/spanish

Specifications designed for you and your students

We have worked with teachers and universities to design stimulating content to enable students to develop their linguistic skills alongside their understanding of the culture and society of the countries where Spanish is spoken.

We select a broad area of study to prescribe certain aspects for closer examination.

Students will study technological and social change, looking at the multicultural nature of Hispanic society. They will study highlights of Hispanic artistic culture, including a focus on Spanish regional identity and the cultural heritage of past civilisations. They will learn about aspects of the diverse political landscape of the Hispanic world.

Students will explore the influence of the past on present-day Hispanic communities. Throughout their studies, they learn the language in the context of Hispanic countries and issues and influences which have shaped them. Students will study texts and film and will have the opportunity to carry out independent research on an area of their choice.

Assessment tasks will be varied and cover listening, speaking, reading and writing skills.

3 Subject content

The A-level specification builds on the knowledge, understanding and skills gained at GCSE. It constitutes an integrated study with a focus on language, culture and society. It fosters a range of transferable skills including communication, critical thinking, research skills and creativity, which are valuable to the individual and society. The content is suitable for students who wish to progress to employment or to further study, including a modern languages degree.

The specification has been designed to be studied over two years. The suggestions below relating to content for year one and content for year two are based on the knowledge that the course will generally be taken over two years. Schools and colleges are free to choose how and when to cover the content.

The approach is a focus on how Spanish-speaking society has been shaped socially and culturally and how it continues to change. In the first year, aspects of the social context are studied, together with aspects of the artistic life of Spanish-speaking countries. In the second year further aspects of the social background are covered, this time focusing on matters associated with multiculturalism. Students also study aspects of the political landscape including the future of political life in the Hispanic world by focusing on young people and their political engagement.

Students will develop their knowledge and understanding of themes relating to the culture and society of countries where Spanish is spoken, and their language skills. They will do this by using authentic spoken and written sources in Spanish.

The choice of works (literary texts and films) offers opportunities to link with the themes so that, for example, the play *La casa de Bernarda Alba* could be linked to the sub-theme Modern and traditional values while the film *Volver* could be connected to the sub-theme Equal rights.

Students following this specification will develop their language knowledge, understanding and skills through:

- using language spontaneously to initiate communication; ask and answer questions; express thoughts and feelings; present viewpoints; develop arguments; persuade; and analyse and evaluate in speech and writing, including interaction with speakers of Spanish
- applying knowledge of pronunciation, morphology and syntax, vocabulary and idiom to communicate accurately and coherently, using a range of expression – including the list of grammar in this specification
- using language-learning skills and strategies, including communication strategies such as adjusting the message, circumlocution, self-correction and repair strategies
- listening and responding to spoken passages including some extended passages from a range of different contexts and sources, adapted as necessary, covering different registers and types, including authentic communication involving one or more speakers
- reading and responding to a variety of texts including some extended texts written for different purposes and audiences drawn from a range of authentic sources, including contemporary, historical and literary, fiction and non-fiction texts, adapted as necessary
- understanding the main points, gist and detail from spoken and written material
- inferring meaning from complex spoken and written material, including factual and abstract content
- assimilating and using information from spoken and written sources, including material from online media
- summarising information from spoken and written sources, reporting key points and subject matter in speech and writing

-
- translating an unseen passage from Spanish into English
 - translating an unseen passage from English into Spanish.

Students must also study either one book and one film or two books from the lists in this specification. They must appreciate, analyse and be able to respond critically in writing in Spanish to the work they have studied. Their understanding of the work must include a critical appreciation of the concepts and issues covered and a critical and analytical response to features such as the form and the technique of presentation as appropriate to the work studied (eg the effect of narrative voice in a prose text or camera-work in a film).

In addition, students following this specification will:

- develop research skills in Spanish, demonstrating the ability to initiate and conduct individual research on a subject of personal interest, relating to the country or countries where Spanish is spoken
- identify a key question or subject of interest and select relevant information in Spanish from a range of authentic sources, including the internet
- use information to illustrate knowledge and understanding of the research subject

The lists are divided into AS and A-level. The examples in *italics* in parentheses are indicative; they serve to illustrate the part of speech or structure that the student must know and do not represent an exhaustive specification of the required grammatical knowledge. For items marked (R), receptive knowledge only is required.

3.5 Individual research project

Students must identify a subject or a key question which is of interest to them and which relates to a country or countries where Spanish is spoken. They must select relevant information in Spanish from a range of sources including the internet. The aim of the research project is to develop research skills. Students will demonstrate their ability to initiate and conduct individual research by analysing and summarising their findings, in order to present and discuss them in the speaking assessment.

Students may choose a subject linked to one of the themes or sub-themes or to one of the works. However, students must not base their research on the same literary text or film that they refer to in their written assessment.

Students within a school or college should each choose a different subject for their research. However, if more than one student selects the same general subject area, the title of their research and their approach must be different.

The A-level Content Advisory Board (ALCAB) has published illustrative examples of individual research topics at alcab.org.uk

4 Scheme of assessment

Find past papers and mark schemes, and specimen papers for new courses, on our website at aqa.org.uk/pastpapers

This specification is designed to be taken over two years.

This is a linear qualification. In order to achieve the award, students must complete all assessments at the end of the course and in the same series.

A-level exams and certification for this specification are available for the first time in May/June 2018 and then every May/June for the life of the specification.

All materials are available in English only.

Our A-level exams in Spanish include questions that allow students to demonstrate their ability to:

- draw together their knowledge, skills and understanding from across the full course of study
- provide extended responses.

4.1 Aims

Courses based on this specification should encourage students to:

- enhance their linguistic skills and promote and develop their capacity for critical thinking on the basis of their knowledge and understanding of the language, culture and society of the country or countries where the language is spoken
- develop control of the language system to convey meaning, using spoken and written skills, including an extended range of vocabulary, for both practical and intellectual purposes as increasingly confident, accurate and independent users of the language
- develop their ability to interact effectively with users of the language in speech and in writing, including through online media
- develop language learning skills and strategies, including communication strategies to sustain communication and build fluency and confidence
- engage critically with intellectually stimulating texts, films and other materials in the original language, developing an appreciation of sophisticated and creative uses of the language and understanding them within their cultural and social context
- develop knowledge about matters central to the society and culture, past and present, of the country or countries where the language is spoken
- mediate between cultures and between speakers of the language and speakers of English
- foster their ability to learn other languages
- equip themselves with transferable skills such as autonomy, resourcefulness, creativity, critical thinking, and linguistic, cultural and cognitive flexibility that will enable them to proceed to further study or to employment
- develop their capacity for critical and analytical thinking through the language of study
- develop as independent researchers through the language of study.

4.2 Assessment objectives

Assessment objectives (AOs) are set by Ofqual and are the same across all A-level Spanish specifications and all exam boards.

The exams will measure how students have achieved the following assessment objectives.

- AO1: Understand and respond:
 - in speech to spoken language including face-to-face interaction
 - in writing to spoken language drawn from a variety of sources.
- AO2: Understand and respond:
 - in speech to written language drawn from a variety of sources
 - in writing to written language drawn from a variety of sources.
- AO3: Manipulate the language accurately, in spoken and written forms, using a range of lexis and structure.
- AO4: Show knowledge and understanding of, and respond critically and analytically to, different aspects of the culture and society of countries/communities where the language is spoken

Across assessment objectives AO1 and AO2, no more than 10% of the total marks for the qualification may be used for responses in English, including translation into English.

4.2.1 Assessment objective weightings for A-level Spanish

Assessment objectives (AOs)	Component weightings (approx %)			Overall weighting (approx %)
	Paper 1	Paper 2	Paper 3	
AO1	12.5	0	7.5	20
AO2	27.5	0	2.5	30
AO3	10	10	10	30
AO4	0	10	10	20
Overall weighting of components	50	20	30	100

4.3 Assessment weightings

The marks awarded on the papers will be scaled to meet the weighting of the components. Students' final marks will be calculated by adding together the scaled marks for each component. Grade boundaries will be set using this total scaled mark. The scaling and total scaled marks are shown in the table below.

Component	Maximum raw mark	Scaling factor	Maximum scaled mark
Paper 1: Listening, reading and writing	100	x2	200
Paper 2: Writing	80	x1	80
Paper 3: Speaking	60	x2	120
Total scaled mark:			400

4.4 Paper 1: Listening, reading and writing

Duration: 2 hours 30 minutes; total raw mark: 100

Listening and responding

Students will listen to spoken passages from a range of contexts and sources, covering different registers and types. The content of the passages will be based on the themes and sub-themes in this specification.

Questions will target main points, gist and detail and will require either non-verbal responses or responses in Spanish. Questions will include the need to infer meaning and will include of abstract material such as opinions, views, emotional reactions and personal experiences.

For one question students will need to summarise in Spanish what they have understood from the passage they have heard and marks will be awarded for the quality of Spanish used. Students must write in full sentences and use their own words as far as possible in this question.

In the remaining questions requiring a response in Spanish, students should give only the information required by the question.

Across the passages for listening, reference will be made to at least two Spanish-speaking countries other than Spain.

At least one passage will involve more than one speaker. Passages will be studio recorded and provided to schools and colleges. Students will have individual control of the recording. The language and delivery of the recorded material will reflect its content and context.

Reading and responding

Texts will include contemporary and historical material and will cover non-fiction and literary fiction and/or material based on literature. The content of the stimulus texts will be based on the themes and sub-themes in this specification, except in the case of literary texts where the content may fall outside of these themes and sub-themes.

Questions will target main points, gist and detail and will require either non-verbal responses or responses in Spanish. Questions will include the need to infer meaning and will include abstract material such as opinions, views, emotional reactions and personal experiences.

For one question students will need to summarise in Spanish what they have understood from the stimulus text they have read and marks will be awarded for the quality of Spanish used. Students must write in full sentences and use their own words as far as possible in this question.

For the remaining questions requiring a response in Spanish, students should give only the information required by the question.

Across the stimulus texts for reading, reference will be made to at least two Spanish-speaking countries other than Spain.

Assessment

In questions requiring a summary, the marks for content (AO1 or AO2) and language (AO3) are awarded independently.

Long summaries will be marked for content (AO1 or AO2) or language (AO3) until the first natural break (usually the end of a sentence or main clause) between 90 and 100 words. Short summaries are not subject to an automatic penalty but in practice are unlikely to include all the required content points and will therefore be self-penalising.

The AO1 or AO2 mark is awarded for content points which contain the required information regardless of whether those points are expressed in the student's own words, or are partly or wholly lifted from the recording or text. However, no AO1 or AO2 mark will be awarded for a content point where the student includes irrelevant material or copies inappropriately from the stimulus, eg by 'lifting' an element from the original which does not match the phrasing of the bullet point. Examples of this are in the specimen mark scheme. 'Lifted' language will not be eligible for credit when the AO3 mark is awarded.

In comprehension questions with no AO3 marks, where the natural answer to a question consists entirely or partly of words or phrases from the recording or text, students may use that material without rephrasing it. Minor spelling errors which do not distort the meaning will be tolerated. However, the AO1 or AO2 mark will not be awarded for a response in which the student includes irrelevant material or copies inappropriately from the stimulus, eg by 'lifting' an element from the original which does not match the phrasing of the question set. Examples of this are in the specimen mark scheme.

Translation

Students will translate a passage of at least 100 words from Spanish into English. The content will be based on the themes and sub-themes in this specification.

Students will translate a passage of at least 100 words from English into Spanish. The content will be based on the themes and sub-themes in this specification and students will be provided with a supporting text in Spanish, giving them some of the vocabulary and structures which they will need for the translation.

No dictionaries are allowed in this exam.

4.5 Paper 2: Writing

Duration: 2 hours; total raw mark: 80

Students will answer an essay question in Spanish for each of the two works they have studied (this can be a book and a film, or two books). Students will have a choice of question on each book/film. All questions will be in Spanish and will require a critical and analytical response.

Students will be advised to write approximately 300 words per essay. Everything that students write will be marked; there is no word limit. Students who write the recommended number of words will have access to the full range of marks.

No dictionaries are allowed in this exam.

Access to the books and films is not allowed in this exam.

4.6 Paper 3: Speaking

Duration: 21–23 minutes (including 5 minutes supervised preparation time); total raw mark: 60

The test will be in two parts. Part 1 will be the discussion of one sub-theme from those in this specification, lasting 5–6 minutes, and Part 2 will be the presentation and discussion of the student's individual research project.

Part one

In Part one, the teacher-examiner gives the student two cards, following the sequencing table provided as part of the assessment material and avoiding the topic of the student's individual research project. Each card is based on a sub-theme and the two cards are drawn from different themes. The student chooses one of the two cards.

The stimulus card will form the basis for the discussion. The content of each card will be based on one of the sub-themes in this specification. Cards will contain images, text and three questions. The teacher-examiner will ask the student the questions during the discussion.

The student must ask the teacher-examiner two questions arising from the material on the card.

To meet the requirement to ask questions, a student must seek information or an opinion. Asking for repetition or clarification will not meet the requirement. The student's questions must contain a conjugated verb. Rephrasing or repetition of the printed questions will not meet the requirement. Sample questions are shown in the specimen mark scheme.

Students may make notes during the 5 minute supervised preparation time and may make reference to these notes during the discussion of the sub-theme. The notes should be stored securely in the centre until results day.

Part two

In Part two the student will present the findings of his or her research for up to two minutes. This will be followed by a discussion of the findings of the student's research. Examples of the types of question the teacher-examiner will ask during the discussion of the project are included in the *AS and A-level French, German and Spanish Instructions for the Conduct of the Examinations* at aqa.org.uk

Students will provide in advance on the *Candidate Record Form* a list of headings to indicate the scope of their research and the sources used. Apart from the names of published sources, any headings must be in English. The teacher may help the student to complete the form. Students must use at least two sources and at least one of them must be an online source. Apart from the two required sources, any remaining sources and/or headings must not exceed 80 words. Sources could be visual, audio or written (in any combination) and must be capable of leading to findings that will form the basis of a 9–10 minute discussion.

Teachers are allowed to:

- provide suggestions for the subject of students' individual research
- discuss, guide and advise students on their proposed project title (including language of the title) and the scope of the research
- correct the language of the project title where necessary
- give feedback to students on the extent to which their provisional titles will or will not meet the assessment criteria
- suggest sources of reference, including but not limited to websites, books and magazines

-
- provide support/guidance on research techniques, including how best to manage the storing and assimilation of knowledge and information that has been researched
 - provide guidance on planning and timescales, including deadlines or milestones according to which research outcomes can be monitored and checked
 - monitor students' progress according to such deadlines or milestones
 - provide general advice on the type of language which students might use in the presentation and discussion.

Teachers must not:

- provide the student with material that they have designed specifically for the student's project
- download and give the student specific source materials or copied and pasted extracts
- provide specific advice on the language of the student's presentation and discussion, apart from the language of the project title
- give feedback orally or in writing on any written notes, drafts or preparatory work produced by the student for the presentation or discussion
- give feedback orally or in writing on any oral practice presentation by the student, beyond informing the student if it exceeds 2 minutes.

General advice is defined as guidance which the teacher would include in the teaching and learning of the class and which would apply to all projects. Specific advice is defined as guidance which relates to a particular project and is tailored to an individual student or group of students.

During the presentation and discussion of their research project, students may only have access to their completed *Candidate Record Form*. No other notes are allowed.

Speaking assessments will be conducted by either the school or college or a visiting examiner. All assessments must be recorded and a complete and unedited audio recording made available to AQA.

All assessments will be assessed by an AQA examiner.

A five-week window will be timetabled during April and May. All assessments must be conducted within this period.

Teachers conducting the assessments can open the assessment material up to two working days before the assessment window opens in order to prepare for conducting the tests.

Detailed instructions for the teacher will be issued before the test period. Online training materials will also be available to ensure that teachers are familiar with the requirements of the assessments.

The confidentiality of the assessment materials must be strictly maintained before and during the period of the assessments.

Access to dictionaries is not allowed at any time during the assessment or preparation time.

For further detail on Paper 3 Speaking, see *A-level French, German and Spanish Instructions for Speaking tests* and *A-level French, German and Spanish: Candidate Record Form*.

Assessment of individual research project

Students will provide a two-minute presentation of their chosen research project. This will be followed by a discussion lasting 9–10 minutes.

The presentation will be assessed for AO4 and the discussion for AO1, AO3 and AO4.

The presentation

The presentation should cover some key findings emerging from the research carried out by the student. It will be the quality of these findings rather than their quantity that will determine the mark awarded.

Level	Descriptor
Thorough knowledge	A presentation that demonstrates that the student has fully understood and assimilated research-based knowledge through the development, in the time available, of key findings.
Good knowledge	A presentation that demonstrates that the student has mostly understood and assimilated research-based knowledge through the development, in the time available, of key findings.
Reasonable knowledge	A presentation that demonstrates that the student has understood and assimilated some research-based knowledge through the development, in the time available, of key findings.
Limited knowledge	A brief outline of key findings with little development and showing little understanding and assimilation of research-based knowledge.
Very limited knowledge	The briefest outline of key findings with very little development and showing very little understanding and assimilation of research-based knowledge.

The discussion

The examiner may use points made in the presentation as well as information given on the *Candidate Record Form* to initiate the discussion.

From there on, the examiner proceeds on the basis of points made in response to questions. Questions can be informed by knowledge of the topic area, or lack of knowledge of the topic area.

The emphasis throughout the discussion will be on eliciting views, opinions, ideas, and reactions from the student which they will be invited to explain, develop further, justify, illustrate, and defend, and where knowledge of the topic area will be paramount in supporting the responses given.

The discussion will focus on key concepts such as importance, impact, value, contribution, significance, as well as on the student's appreciation of the topic area – its appeal and interest, and the insights the study has brought to the student. This will naturally generate opportunities for the student to analyse, evaluate and draw conclusions on those aspects of the topic area that have been researched.

Level	Descriptor
Excellent level of performance	<ul style="list-style-type: none"> • The student will respond readily to all opportunities to explain, develop further, justify and defend opinions and views expressed about the topic under discussion. • Response to questions inviting the student to evaluate critically aspects of what has been researched will be supported by relevant factual knowledge. • Knowledge of the topic under discussion will be used consistently and effectively to support views and opinions. • Challenges from the examiner that perhaps call into question the validity of the student's findings or the conclusions they are offering will consistently be responded to with a confident and effective marshalling of knowledge.
Good level of performance	<ul style="list-style-type: none"> • The student will respond well to most opportunities to explain, develop further, justify and defend opinions and views expressed about the topic under discussion. • Response to questions inviting the student to evaluate critically aspects of what has been researched will be supported by some relevant factual knowledge but at times the student may provide information that is not directly relevant to the discussion. • Challenges from the examiner that perhaps call into question the validity of the student's findings or the conclusions they are offering will not always be responded to with a confident and effective marshalling of knowledge.
Reasonable level of performance	<ul style="list-style-type: none"> • The student will respond well to some opportunities to explain, develop further, justify and defend opinions and views expressed about the topic under discussion. • Response to questions inviting the student to evaluate critically aspects of what has been researched will not generally be supported by some relevant factual knowledge and the student may provide much information that is not directly relevant to the discussion. • Challenges from the examiner that perhaps call into question the validity of the student's findings or the conclusions they are offering will not usually be responded to with a confident and effective marshalling of knowledge.

Level	Descriptor
Limited level of performance	<ul style="list-style-type: none"> • The student may attempt some response to opportunities to explain, develop further, justify and defend opinions and views expressed about the topic under discussion but these will not always be successful. • The nature of these responses will mean that the discussion largely avoids questions inviting the student to evaluate critically aspects of what has been researched in favour of a more factual line of questioning. • There will be few if any challenges from the examiner that perhaps call into question the validity of the student's findings or the conclusions they are offering.
Very limited level of performance	<ul style="list-style-type: none"> • The examiner will be hard pushed to find opportunities to which the student can respond effectively to explain, develop further, justify and defend opinions and views expressed about the topic under discussion. • Questions will be designed to elicit very simple responses both in terms of language and content and there will be little awareness of linking factual information about the topic under discussion to a broader context.

5 General administration

You can find information about all aspects of administration, as well as all the forms you need, at aqa.org.uk/examsadmin

5.1 Entries and codes

You only need to make one entry for each qualification – this will cover all the question papers, non-exam assessment and certification.

Every specification is given a national discount (classification) code by the Department for Education (DfE), which indicates its subject area.

If a student takes two specifications with the same discount code, further and higher education providers are likely to take the view that they have only achieved one of the two qualifications. Please check this before your students start their course.

Qualification title	Option	AQA entry code	DfE discount code
AQA Advanced Level GCE in Spanish	7692T 7692V	7692	TBC

This specification complies with:

- Ofqual *General conditions of recognition* that apply to all regulated qualifications
- Ofqual GCE qualification level conditions that apply to all GCEs
- Ofqual GCE subject level conditions that apply to all GCEs in this subject
- all other relevant regulatory documents.

The Ofqual qualification accreditation number (QAN) is TBC.

5.2 Overlaps with other qualifications

There is overlapping content in the AS and A-level Spanish specifications. This helps you teach the AS and A-level together.

5.3 Awarding grades and reporting results

The A-level qualification will be graded on a six-point scale: A*, A, B, C, D and E.

Students who fail to reach the minimum standard for grade E will be recorded as U (unclassified) and will not receive a qualification certificate.

5.4 Resits and shelf life

Students can resit the qualification as many times as they wish, within the shelf life of the qualification.

5.5 Previous learning and prerequisites

There are no previous learning requirements. Any requirements for entry to a course based on this specification are at the discretion of schools and colleges.

However, we recommend that students should have the skills and knowledge associated with a GCSE Spanish course or equivalent.

5.6 Access to assessment: diversity and inclusion

General qualifications are designed to prepare students for a wide range of occupations and further study. Therefore our qualifications must assess a wide range of competences.

The subject criteria have been assessed to see if any of the skills or knowledge required present any possible difficulty to any students, whatever their ethnic background, religion, sex, age, disability or sexuality. If any difficulties were encountered, the criteria were reviewed again to make sure that tests of specific competences were only included if they were important to the subject.

As members of the Joint Council for Qualifications (JCQ) we participate in the production of the JCQ document *Access Arrangements and Reasonable Adjustments: General and Vocational qualifications*. We follow these guidelines when assessing the needs of individual students who may require an access arrangement or reasonable adjustment. This document is published on the JCQ website at jcq.org.uk

5.6.1 Students with disabilities and special needs

We can make arrangements for disabled students and students with special needs to help them access the assessments, as long as the competences being tested are not changed. Access arrangements must be agreed **before** the assessment. For example, a Braille paper would be a reasonable adjustment for a Braille reader but not for a student who does not read Braille.

We are required by the Equality Act 2010 to make reasonable adjustments to remove or lessen any disadvantage that affects a disabled student.

If you have students who need access arrangements or reasonable adjustments, you can apply using the Access arrangements online service at aqa.org.uk/eaqa

5.6.2 Special consideration

We can give special consideration to students who have been disadvantaged at the time of the assessment through no fault of their own – for example a temporary illness, injury or serious problem such as the death of a relative. We can only do this **after** the assessment.

Your exams officer should apply online for special consideration at aqa.org.uk/eaqa

For more information and advice about access arrangements, reasonable adjustments and special consideration please see aqa.org.uk/access or email accessarrangementsqueries@aqa.org.uk

5.7 Working with AQA for the first time

If your school or college has not previously offered any AQA specification, you need to register as an AQA centre to offer our specifications to your students. Find out how at [aqa.org.uk/becomeacentre](https://www.aqa.org.uk/becomeacentre)

5.8 Private candidates

This specification is available to private candidates.

A private candidate is someone who enters for exams through an AQA-approved school or college but is not enrolled as a student there.

A private candidate may be self-taught, home-schooled or have private tuition, either with a tutor or through a distance learning organisation. You must be based in the UK.

If you have any queries as a private candidate, you can:

- speak to the exams officer at the school or college where you intend to take your exams
- visit our website at [aqa.org.uk/privatecandidates](https://www.aqa.org.uk/privatecandidates)
- email: privatecandidates@aca.org.uk
