## SECTION B Fieldwork

Answer ALL questions in this section.

A student wanted to carry out a human geography enquiry in their local town by investigating the question ‘Does the town centre have a parking problem?’

In order to do this the student carried out primary research, including a questionnaire and a car park survey.

Study FIGURE 4, which shows the results of the questionnaire and car park survey.

A group of students wanted to investigate the hypothesis that ‘The size of pebbles in a river is smaller as the river flows downstream’.

In order to do this the students measured the long axis of ten pebbles from three different places (A, B and C) along the river.

Study FIGURE 5, a table showing the results of the survey.
