A poster published by the World Health Organisation in 2017.

The poster was displayed in doctors' surgeries in Britain. It was part of a worldwide campaign to increase understanding about the issue of antibiotic resistance. The World Health Organisation is the part of the United Nations which deals with international public health.

**Misuse of ANTIBIOTICS
puts us all at risk.**

Taking antibiotics when you don't need them speeds up antibiotic resistance. Antibiotic resistant infections are more complex and harder to treat. They can affect anyone, of any age, in any country.

Always seek the advice of a healthcare professional before taking antibiotics.

**HANDLE
ANTIBIOTICS
WITH CARE**
