# A-level DESIGN AND TECHNOLOGY: FASHION AND TEXTILES

Paper 1 Technical Principles

Wednesday 7 June 2023 Afternoon Time allowed: 2 hours 30 minutes

### **Materials**

For this paper you must have:

- normal writing and drawing instruments
- a scientific calculator.

### Instructions

- Use black ink or black ball-point pen. Use pencil only for drawing.
- Fill in the boxes at the top of this page.
- Answer all questions.
- You must answer the questions in the spaces provided. Do not write outside the box around each page or on blank pages.
- If you need extra space for your answer(s), use the lined pages at the end of this book. Write the question number against your answer(s).
- Do all rough work in this book. Cross through any work you do not want to be marked.

### Information

- The marks for questions are shown in brackets.
- The maximum mark for this paper is 120.

0 4

A retailer has different offers on garments as shown in **Table 1**.

Table 1

Garment	Normal price	Sale offer
Budget	£17.99	$\frac{1}{5}$ off
Luxury	£24.50	40% off

Which garment is cheaper in the sale?

You <b>must</b> show your working.	[3 marks]
Δηςν	VAT

Describe a range of different garment manufacturing systems that meet for fast changes in fashion.	the demand
	[9 marks
Turn over for the next question	

0 6	Name <b>two</b> inorganic fibres.	[2 marks]
	1	
	2	
0 7	Outline the role of the British Standards Institute (BSI).	[3 marks]

0 8	Explain how the <b>properties of fabrics</b> can be modified by applying a range of chemical finishes.			
	In your answer you should refer to specific chemical finishes.	[12 marks]		

12

	Manufacturers need to comply with Health and Safety laws.
ı	Analyse and evaluate how the Health and Safety at Work Act (1974) impacts on manufacturers of fashion and textiles products.  [9 m
•	
,	

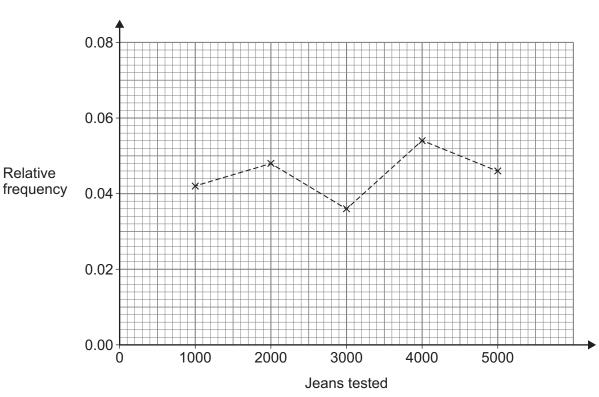

A jeans manufacturer carries out a survey to investigate the probability of producing faulty jeans.

The relative frequency of faulty jeans was calculated and the results are plotted on the graph in **Figure 1**.

Figure 1

1 0 . 1 How many of the first 3000 jeans tested were faulty?

Show your working.

[2	m	ar	'KS]
----	---	----	------

Answer \_\_\_\_\_

1 0 . 2	Estimate the probability that one pair of jeans, selected at random, will be faulty.	box
	Show your working.	
	Give a clear reason for your answer.  [2 marks]	
		4

Turn over for the next question

1 1	Compare and contrast the environmental impact of wool, silk and hair fibres with synthetic fibres.
	In your answer you should refer to:
	the sources of raw material
	• processing
	care and maintenance
	disposal.
	[12 marks]

Explain the ben	efits of virtual mode	lling for use in clien	t presentations.	
Explain the ben	efits of virtual mode	lling for use in clien	t presentations.	[6 marks]
Explain the ben	efits of virtual mode	lling for use in clien	t presentations.	[6 marks]
Explain the ben	efits of virtual mode	lling for use in clien	t presentations.	[6 marks]
Explain the ben	efits of virtual mode	lling for use in clien	t presentations.	[6 marks]
