Surname \_\_\_\_\_

Forename(s) \_\_\_\_\_

Centre Number \_\_\_\_\_

Candidate Number \_\_\_\_\_

Candidate Signature \_\_\_\_\_

I declare this is my own work.

**GCSE**

**ENGINEERING**

**Unit 1 Written Paper**

**8852/W**

**Tuesday 20 June 2023**

**Morning**

**Time allowed: 2 hours**

**At the top of the page, write your surname and forename(s), your centre number, your candidate number and add your signature.**

**[Turn over]**

JUN238852W01

**MATERIALS**

For this paper you must have:

- normal writing and drawing instruments
- a calculator.

**INSTRUCTIONS**

- Use black ink or black ball-point pen. Use pencil only for drawing.
- Answer ALL questions.
- You must answer the questions in the spaces provided. Do not write on blank pages.
- If you need extra space for your answer(s), use the lined pages at the end of this book. Write the question number against your answer(s).
- Some questions will require you to shade a circle. If you make a mistake cross through the incorrect answer.
- Do all rough work in this book. Cross through any work you do not want to be marked.

## **INFORMATION**

- **The marks for questions are shown in brackets.**
- **The maximum mark for this paper is 120.**
- **You are reminded of the need for good English and clear presentation in your answers.**

**DO NOT TURN OVER UNTIL TOLD TO DO SO**

Answer ALL questions in the spaces provided.

For each question completely fill in the circle alongside the appropriate answer.

**CORRECT METHOD**

**WRONG METHODS**

If you want to change your answer you must cross out your original answer as shown.

If you wish to return to an answer previously crossed out, ring the answer you now wish to select as shown.

01.1

Which ONE of the following properties allows a material to resist wear and abrasion? [1 mark]

A Ductility

B Hardness

C Malleability

D Toughness

[Turn over]

01.2

Which ONE of the following metals is an alloy?  
[1 mark]

A Brass

B Copper

C Iron

D Zinc

01.3

Which of the stock forms listed below does NOT apply to metal? [1 mark]

A Bar

B Board

C Rod

D Sheet

**01.4**

**Which one of the following properties could be used to describe Lead? [1 mark]**

**A Brittle****B Highly conductive****C Malleable****D Tough**

**C Process**

**D Programmable**

01.6

Name the circuit symbol shown below. [1 mark]

A Battery

B Capacitor

C Diode

D Switch

[Turn over]

01.7

Fibre reinforced polymer (FRP) is an example of which type of material? [1 mark]

A Alloy

B Composite

C Textile

D Timber

01.8

Use the word bank provided, on the opposite page, to complete the following statements. [3 marks]

There are two types of polymers, thermoplastics and

\_\_\_\_\_ polymers.

When thermoplastics are heated, they become soft and

\_\_\_\_\_, allowing them to be

formed into a range of products.

Thermoplastic products can be easily

\_\_\_\_\_ at the end of their lifecycle.

**WORD BANK**

- burnt
- disposed of
- flexible
- hard
- recycled
- shaped
- thermoforming
- thermosetting
